Symbol Definition	
	WARNING: Indicates information that a potentially hazardous situation which, if not avoided, could result in serious injury or death.
	RISK OF ELECTRICAL SHOCK: Indicates information that Potential shock hazard where HAZARDOUS LIVE voltages greater than 30V RMS, 42.4V peak, or 60V DC may be accessible.
	ESD HAZARD: Indicates information that Danger of an electro-static discharge to which equipment may be sensitive. Observe precautions for handling electrostatic sensitive devices
	ATTENTION: Identifies information that requires special consideration.
	TIP: Identifies advice or hints for the user.

DD File Device List

Section 1 About This Document

This document mainly introduces the DD files supported by Intelligent Device Management component. If the field devices list are different from the device list in Intelligent Device Management component, you can confirm whether it supports the DD file of field devices according to this document.

When checking the table, please follow this sequence: protocol name (HART or FF) / manufacturer name / device model / device version.
